DETAILED ACTION

Response to Amendment

1. The amendment filed on November 10, 2003 has been entered. Claim 28 has been cancelled and new claims 32-34 have been added.

Allowable Subject Matter

2. Claims 23-27 and 29-34 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior fails to disclose the device structure as recited in claims 23 and 32. Specifically, the references of record do not teach or fairly suggest an IC device of the instant application wherein a buried channel having a peak concentration of a predetermined dopant positioned at a selected level in a region of a substrate below a gate dielectric layer causes the substrate portions above the selected level to act as a supplemental gate dielectric layer. For these reasons claims 23 and 32 are deemed to be allowable over prior art and claims 24-27, 29-31, 33 and 34 are allowable by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (703) 605-1227.
